

## **APPENDIX A**

### **COMMERCIAL CHARGES FOR ELECTRICAL SERVICING**

## **SUMMARY**

This Engineering Instruction outlines the Electric Service Charges for the current year. The purpose for revising the charges is to ensure that the Board's overall capital recovery objective of one hundred percent (100%) is obtained.

**2024 ELECTRIC DEPARTMENT  
BUILDER AND DEVELOPER CHARGES**

<b>DESCRIPTION</b>	<b>2024</b>
<b>Residential Per Unit Charges</b>	
Single Family, Zero Lot Line	Actual
Multi-Family/Semi-Detached	Actual
<b>Apartments/Commercial</b>	
Assessed At 100% London Hydro Costs	
<b>URD Service Locations</b>	
Non-Standard	\$61/m
Relocate Padmount Transformer	Actual
<b>Install/Remove Temporary</b>	
URD Transformer Locations (no conductor included)	\$ 300.00*
Overhead From Existing Bus (no conductor included)	\$ 500.00*

\* Rate Specified by OEB

Primary Temporary Services:

100% labour, trucking & equipment to install and remove;  
 100% of non-recoverable material;  
 16% of recoverable material;  
 7% of transformer cost;  
 plus engineering charge

<b>DESCRIPTION</b>	<b>CHARGE</b>
Cut & Reconnect single phase commercial OH service up to 200 amp	\$800.00
Cut & Reconnect three phase commercial OH service	\$900.00
Telecom Power Supply or overhead streetlight connection	\$1,000.00
Underground streetlight connection	\$750.00

**Prices do not include H.S.T**

**2024 COMMERCIAL CONNECTION CHARGES  
A - SECONDARY SERVICES**

**120/240 VOLT**

SERVICE	2024
100 AMP O/H	\$2,340
100 AMP U/G	\$2,150
200 AMP O/H	\$3,300
200 AMP U/G	\$3,010
400 AMP O/H	\$6,700
400 AMP U/G	\$6,050

**120/208 VOLT**

SERVICE	2024
100 AMP O/H	\$4,370
100 AMP U/G TO POLE	\$3,640
200 AMP O/H	\$6,840
200 AMP U/G TO POLE	\$5,780
400 AMP O/H	\$11,270
400 AMP U/G TO POLE	\$10,220
600 AMP U/G TO POLE	\$27,270

**347/600 VOLT**

SERVICE	2024
100 AMP O/H	\$5,680
100 AMP U/G TO POLE	\$4,950
200 AMP O/H	\$9,450
200 AMP U/G TO POLE	\$8,390
400 AMP O/H	\$23,370
400 AMP U/G TO POLE	\$22,320
600 AMP U/G TO POLE	\$42,950

**A - SECONDARY SERVICES - (continued)**

Network

SERVICE	2024	
	Transformation	Secondary Connection
100 AMP	\$3,159	\$2,910
200 AMP	\$6,582	\$2,910
400 AMP	\$14,361	\$2,910
600 AMP	\$22,567	\$5,560
800 AMP	\$31,594	\$5,560
1000 AMP	\$39,493	\$8,240
1200 AMP	\$52,657	\$8,240

**Note:**

Total Network charges include both transformation and secondary connection costs. Prices do not include any primary/secondary duct charges. Apply where applicable.

**Prices do not include H.S.T.**

**2024 COMMERCIAL CONNECTION CHARGES  
B - PRIMARY SERVICES**

<b>DESCRIPTION</b>	<b>2024</b>
<b>Primary Supply</b>	
<i><b>Overhead</b></i>	
Primary Tap	\$5,220
<i><b>Underground</b></i>	
Three Phase Riser Pole	\$10,390
Switching Enclosure	\$1,910
Existing Loop Feed Transformer	\$1,070
Manhole or Existing Underground Cable	\$3,330
<b>Primary Duct, Cable, Trenching &amp; Support Structures</b>	
<i><b>Overhead</b></i>	
Each pole span	\$4,790
<i><b>Underground</b></i>	
Up to 50 feet from supply point (3 Ducts)	\$2,080
Up to 50 feet from supply point (6 Ducts)	\$3,744
Portion greater than 50 feet	
3 duct configuration/Meter	\$146
6 duct configuration/Meter	\$260
Manholes	\$15,070
<b>Transformer Support Structures, Grounding and Terminations</b>	
<i><b>Polemounted Transformers</b></i>	
Pole, Anchoring, Guying and Grounding	
Tap Pole	\$14,880
Main Line Pole	\$8,310
Four secondary terminations	\$2,090
Up to eight secondary terminations	\$2,990
<i><b>Padmounted Transformers</b></i>	
Pad, Foundation and Grounding	\$5,370
Up to eight secondary terminations	\$3,100
Up to sixteen secondary terminations	\$3,670
<b>Engineering Charge</b>	
Applied to previous item totals	5%-10%

Prices do not include engineering & primary/secondary duct charges.  
Apply where applicable.

**Prices do not include H.S.T.**

**2024 COMMERCIAL CONNECTION CHARGES**

<b>DESCRIPTION</b>	<b>2024</b>
<b>Customer Owned Substations</b>	
Connection at Riser Pole	\$9,630
Connection at Existing Switching Enclosure	\$1,430
<b>Padmounted Transformer Surcharge</b>	
150 kVA	\$22,900
300 kVA	\$27,390
500 kVA	\$35,070
750 KVA	\$45,330
1000 KVA	\$54,227
1500 kVA	\$60,653
2000 kVA	\$64,927
