

APPENDIX A

COMMERCIAL CHARGES FOR ELECTRICAL SERVICING

SUMMARY

This Engineering Instruction outlines the Electric Service Charges for the current year. The purpose for revising the charges is to ensure that the Board's overall capital recovery objective of one hundred percent (100%) is obtained.

**2020 ELECTRIC DEPARTMENT
BUILDER AND DEVELOPER CHARGES**

DESCRIPTION	2020
Residential Per Unit Charges	
Single Family, Zero Lot Line	Actual
Multi-Family/Semi-Detached	Actual
Apartments/Commercial	
Assessed At 100% London Hydro Costs	
URD Service Locations	
Non-Standard	\$29/m
Relocate Padmount Transformer	Actual
Install/Remove Temporary	
URD Transformer Locations (no conductor included)	\$ 300.00*
Overhead From Existing Bus (no conductor included)	\$ 500.00*

* Rate Specified by OEB

Primary Temporary Services:

100% labour, trucking & equipment to install and remove;
 100% of non-recoverable material;
 16% of recoverable material;
 7% of transformer cost;
 plus engineering charge

DESCRIPTION	CHARGE
Cut & Reconnect single phase commercial OH service up to 200 amp	\$600.00
Cut & Reconnect three phase commercial OH service	\$710.00
Telecom Power Supply or overhead streetlight connection	\$620.00
Underground streetlight connection	\$500.00

Prices do not include H.S.T

**2020 COMMERCIAL CONNECTION CHARGES
A - SECONDARY SERVICES**

120/240 VOLT

SERVICE	2020
100 AMP O/H	\$1,820
100 AMP U/G	\$1,720
200 AMP O/H	\$2,550
200 AMP U/G	\$2,410
400 AMP O/H	\$5,280
400 AMP U/G	\$4,870

120/208 VOLT

SERVICE	2020
100 AMP O/H	\$3,190
100 AMP U/G TO POLE	\$2,840
200 AMP O/H	\$5,140
200 AMP U/G TO POLE	\$4,500
400 AMP O/H	\$8,600
400 AMP U/G TO POLE	\$7,970
600 AMP U/G TO POLE	\$21,240

347/600 VOLT

SERVICE	2020
100 AMP O/H	\$4,290
100 AMP U/G TO POLE	\$3,940
200 AMP O/H	\$7,330
200 AMP U/G TO POLE	\$6,690
400 AMP O/H	\$18,490
400 AMP U/G TO POLE	\$17,860
600 AMP U/G TO POLE	\$34,390

A - SECONDARY SERVICES - (continued)

Network

SERVICE	2020	
	Transformation	Secondary Connection
100 AMP	\$2,755	\$2,490
200 AMP	\$5,739	\$2,490
400 AMP	\$12,522	\$2,490
600 AMP	\$19,677	\$4,720
800 AMP	\$27,548	\$4,720
1000 AMP	\$34,435	\$7,010
1200 AMP	\$45,913	\$7,010

Note:

Total Network charges include both transformation and secondary connection costs. Prices do not include any primary/secondary duct charges. Apply where applicable.

Prices do not include H.S.T.

**2020 COMMERCIAL CONNECTION CHARGES
B - PRIMARY SERVICES**

DESCRIPTION	2020
Primary Supply	
<i>Overhead</i>	
Primary Tap	\$3,440
<i>Underground</i>	
Three Phase Riser Pole	\$7,660
Switching Enclosure	\$1,490
Existing Loop Feed Transformer	\$820
Manhole or Existing Underground Cable	\$2,660
Primary Duct, Cable, Trenching & Support Structures	
<i>Overhead</i>	
Each pole span	\$3,330
<i>Underground</i>	
Up to 50 feet from supply point	\$1,950
Portion greater than 50 feet	
3 duct configuration/Meter	\$100
6 duct configuration/Meter	\$135
Manholes	\$10,720
Transformer Support Structures, Grounding and Terminations	
<i>Polemounted Transformers</i>	
Pole, Anchoring, Guying and Grounding	
Tap Pole	\$9,970
Main Line Pole	\$5,810
Four secondary terminations	\$1,560
Up to eight secondary terminations	\$2,300
<i>Padmounted Transformers</i>	
Pad, Foundation and Grounding	\$4,830
Up to eight secondary terminations	\$2,060
Up to sixteen secondary terminations	\$2,500
Engineering Charge	
Applied to previous item totals	5%-10%

Prices do not include engineering & primary/secondary duct charges.
Apply where applicable.

Prices do not include H.S.T.

2020 COMMERCIAL CONNECTION CHARGES

DESCRIPTION	2020
Customer Owned Substations	
Connection at Riser Pole	\$7,010
Connection at Existing Switching Enclosure	\$1,150
Padmounted Transformer Surcharge	
150 kVA	\$13,510
300 kVA	\$16,150
500 kVA	\$20,690
750 KVA	\$27,260
1000 KVA	\$32,611
1500 kVA	\$37,300
2000 kVA	\$39,860

*

***See Engineering Supervisor prior to quoting customer**

Prices do not include H.S.T.
