

APPENDIX A

COMMERCIAL CHARGES FOR ELECTRICAL SERVICING

SUMMARY

This Engineering Instruction outlines the Electric Service Charges for the current year. The purpose for revising the charges is to ensure that the Board's overall capital recovery objective of one hundred percent (100%) is obtained.

**2021 ELECTRIC DEPARTMENT
BUILDER AND DEVELOPER CHARGES**

DESCRIPTION	2021
Residential Per Unit Charges	
Single Family, Zero Lot Line	Actual
Multi-Family/Semi-Detached	Actual
Apartments/Commercial	
Assessed At 100% London Hydro Costs	
URD Service Locations	
Non-Standard	\$29/m
Relocate Padmount Transformer	Actual
Install/Remove Temporary	
URD Transformer Locations (no conductor included)	\$ 300.00*
Overhead From Existing Bus (no conductor included)	\$ 500.00*

* Rate Specified by OEB

Primary Temporary Services:

100% labour, trucking & equipment to install and remove;
 100% of non-recoverable material;
 16% of recoverable material;
 7% of transformer cost;
 plus engineering charge

DESCRIPTION	CHARGE
Cut & Reconnect single phase commercial OH service up to 200 amp	\$700.00
Cut & Reconnect three phase commercial OH service	\$810.00
Telecom Power Supply or overhead streetlight connection	\$720.00
Underground streetlight connection	\$500.00

Prices do not include H.S.T

**2021 COMMERCIAL CONNECTION CHARGES
A - SECONDARY SERVICES**

120/240 VOLT

SERVICE	2021
100 AMP O/H	\$1,850
100 AMP U/G	\$1,750
200 AMP O/H	\$2,580
200 AMP U/G	\$2,440
400 AMP O/H	\$5,330
400 AMP U/G	\$4,920

120/208 VOLT

SERVICE	2021
100 AMP O/H	\$3,220
100 AMP U/G TO POLE	\$2,870
200 AMP O/H	\$5,150
200 AMP U/G TO POLE	\$4,510
400 AMP O/H	\$8,710
400 AMP U/G TO POLE	\$7,950
600 AMP U/G TO POLE	\$21,100

347/600 VOLT

SERVICE	2021
100 AMP O/H	\$4,330
100 AMP U/G TO POLE	\$3,980
200 AMP O/H	\$7,390
200 AMP U/G TO POLE	\$6,750
400 AMP O/H	\$18,710
400 AMP U/G TO POLE	\$17,950
600 AMP U/G TO POLE	\$34,530

A - SECONDARY SERVICES - (continued)

Network

SERVICE	2021	
	Transformation	Secondary Connection
100 AMP	\$2,806	\$2,530
200 AMP	\$5,847	\$2,530
400 AMP	\$12,756	\$2,530
600 AMP	\$20,046	\$4,780
800 AMP	\$28,064	\$4,780
1000 AMP	\$35,080	\$7,090
1200 AMP	\$46,773	\$7,090

Note:

Total Network charges include both transformation and secondary connection costs. Prices do not include any primary/secondary duct charges. Apply where applicable.

Prices do not include H.S.T.

**2021 COMMERCIAL CONNECTION CHARGES
B - PRIMARY SERVICES**

DESCRIPTION	2021
Primary Supply	
<i>Overhead</i>	
Primary Tap	\$3,540
<i>Underground</i>	
Three Phase Riser Pole	\$7,720
Switching Enclosure	\$1,510
Existing Loop Feed Transformer	\$840
Manhole or Existing Underground Cable	\$2,710
Primary Duct, Cable, Trenching & Support Structures	
<i>Overhead</i>	
Each pole span	\$3,420
<i>Underground</i>	
Up to 50 feet from supply point	\$2,100
Portion greater than 50 feet	
3 duct configuration/Meter	\$100
6 duct configuration/Meter	\$140
Manholes	\$10,640
Transformer Support Structures, Grounding and Terminations	
<i>Polemounted Transformers</i>	
Pole, Anchoring, Guying and Grounding	
Tap Pole	\$10,090
Main Line Pole	\$5,870
Four secondary terminations	\$1,620
Up to eight secondary terminations	\$2,380
<i>Padmounted Transformers</i>	
Pad, Foundation and Grounding	\$5,080
Up to eight secondary terminations	\$2,080
Up to sixteen secondary terminations	\$2,530
Engineering Charge	
Applied to previous item totals	5%-10%

Prices do not include engineering & primary/secondary duct charges.
Apply where applicable.

Prices do not include H.S.T.

2021 COMMERCIAL CONNECTION CHARGES

DESCRIPTION	2021
Customer Owned Substations	
Connection at Riser Pole	\$7,060
Connection at Existing Switching Enclosure	\$1,170
Padmounted Transformer Surcharge	
150 kVA	\$13,510
300 kVA	\$16,150
500 kVA	\$20,690
750 KVA	\$27,260
1000 KVA	\$32,611
1500 kVA	\$37,300
2000 kVA	\$39,860

*

***See Engineering Supervisor prior to quoting customer**

Prices do not include H.S.T.
